OBJECTIVE

As a third-year Information Systems student, I am eager to apply my knowledge and skills in full-stack development through an internship opportunity. I am committed to contributing effectively to a dynamic team while continuing to grow professionally in the field of web development.

EDUCATION

Major: Information Systems

September/2022 - Now

University of Information Technology - UIT

Degree: Bachelor

SKILLS

Front-end:
Programming Languages: HTML, CSS, JavaScript.
Frameworks/Libraries: React, Redux, Next.js, Tailwind CSS.
Back-end:
Programming Languages: PHP.
Frameworks/Libraries: Laravel.
Database: MySQL, Oracle.

PROJECT

Kick Shoes - E-commerce Shoe Website

Repo: https://github.com/Vo-Dinh-Quan/Kicks-Shoes

Description:

An e-commerce website for a shoe store, enabling customers to browse and purchase products online. The project was built with a focus on user experience, performance, and security. The website includes features such as a responsive design, secure user authentication, product categorization, and an integrated shopping cart system.

Responsibilities:

I was responsible for almost all of the front-end work, implementing nearly all the essential features required for an e-commerce website.

Technologies Used:

React, Tailwind CSS, Laravel, MySQL.
